Legion Will Register War Veterans Here

"Preparedness for Emergencies" Given as Cause for Drive

Antioch Post No. 748 of the American Legion is co-operating with other posts in Lake county in a nation-wide Legion-sponsored drive to register all World War veterans.

The registration, which is voluntary, is for possible future national defense service as part of the Legion preparedness for any emergency, Commander J. H. Message announces.

Message has named Adjutant John Horan chairman of the registration committee. Other members are Capt. L. D. Powles, Roman Vos and Dr. A. P. Bratrude.

The dates for the registration, which is for all World War veterans regardless of Legion affiliation, have been set for Sunday, Feb. 16, from 1 to 5, and Monday, Feb. 17, from 9 to 5, in the Legion hall.

A total of 28 questions will be asked of each man, according to Message. One significant question will not be asked, however, Commander Message said. That question, strange to say, is that of the registrant's age.

The American Legion does not want to know how old its members or other World War veterans are, who register, because there is no longer any restriction of age in a citizen's sharing in national defense. Thereby hangs a grim story.

"Total war has virtually eliminated the factor of age in national defense," Commander Message explained. "In the old days mostly the young and strong went forth to battle. Those days are gone forever. Wars today no longer are merely tests of strength between manpower and gunpowder. They are today contests also between industrial and economic systems. Everybody is a part of these systems.

"Likewise the battle front has vanished. Or rather it has spread to include every home in the nation. Bombs that rain down from the sky have no preference in objectives. They destroy anything that comes in their way. That has made every citizen, young or old, a combatant today.

"In view of these facts the American Legion has not included the age question in its national defense questionnaire. There will be no age restriction in any possible anticipated home service in defense of the nation. Every good citizen, young or old, must do his share in national defense. That is the new order in national emergencies today!"

Commander Message pointed out that men and women skilled in the trades now are in demand in national defense industries irrespective of age. "Factories and shops are reported to be hiring trained men today in some cases who are past 70 years and even older," Commander Message said. "This is especially true in machine, mechanical and metal trades."

The American Legion national defense questionnaire lists 67 special trades and vocations which each registrant is asked to check. If the registrant's trade is not listed, he should write it in, Commander Message advised.

Rescue Squad Members Study Radio Operation

Anticipating the installation of the two way radio broadcasting system in the Antioch rescue squad truck, members of the squad are studying radio operation, and expect to become licensed radio operators.

In order to qualify, they will have to pass examinations to be held under the direction of the federal communications administration.

New springs which will make the truck suitable for ambulance use, will be installed through the courtesy of the Ford Motor company and the co-operation of William Rosing and Son, proprietors of the Antioch garage.

The truck was purchased primarily for the transportation of equipment to the scenes of emergencies, but has been pressed into improvised ambulance service on several occasions.

Firemen Are Entertained Tuesday Night at Trevor

Howard Stewart of the Peterson Motor Sales, Waukegan, presented a program of motion pictures at a meeting of the Antioch fire department Tuesday evening.

After the meeting 15 members of the department were entertained at a luncheon at John Gevers' tavern in Trevor.

Reception Honors Mrs. Griffith on 83rd Anniversary

Waukegan News-Sun photo

The eighty-third birthday anniversary of Mrs. Elizabeth Griffith, mother of Mrs. Daniel S. Boyer, provided the incentive for a reception given by the Boyers at their home on Hardin avenue Sunday.

Fifty guests called during the afternoon and evening to present their felicitations, among those from out of town being William H. Griffith, Robert R. Griffith, Chester A. Griffith, Mrs. Mabel Holst, Mr. and Mrs. Richard G. Boyer of Chicago, Mr. and Mrs. W. J. B. Janisch of Highland Park, Miss Mabel Holst, Miss Mabel Graham, Miss Lillian Graham, Ben Holst, Mrs. Mildred Herben, Miss Joane Bancroft, Robert Griffith, Jack Griffith, the Robert Holsts, Mr. and Mrs. John Scott, Mr. and Mrs. Ed Eatswold, Mr. and Mrs. Mel York, Mr. and Mrs. Graham Grimes, Mr. and Mrs. J. E. Grimes of Lake Villa.

A buffet supper was served at a table set with a silver service and crystal ware, with a centerpiece of sweet peas. Mrs. Griffith, who has been visiting her daughter, came to this region with her husband, Robert, more than 30 years ago.

They settled in what is now Buena Park on the east shore of Fox Lake, and the Griffith home has been maintained there ever since.

Mr. Griffith, who died in 1900, was alderman of the 25th ward in Chicago and national president of the Master Plumbers association at the time of his death.

Baby Gets Real "Cold Reception"; Stork Picks Wis. Snowbank

Attracting nation-wide, if not world-wide attention, is the experience that befell Dr. H. A. Smith of Winter, Wis., one of the Antioch News' subscribers, when he was called to rush Mrs. Grace Armstrong to the Park Falls, Wis., hospital for the birth of her baby.

On the way to the hospital, Dr. Smith's car skidded into the ditch, and the doctor, unable to extricate it, hailed a passing motorist. Mrs. Armstrong, semi-conscious, was transferred to his car. On their arrival at the hospital, a nurse in the operating room exclaimed, "the baby has been born, but where is it?"

Meanwhile, Joseph Siefert, a farmer, had found the eight-pound baby boy in the snow, and it is believed the child was born while the mother was transferred from one car to another.

The baby has been named "Snowball" by the attendants at the hospital, and can lay claim to being a real "Snow Baby."

Tenth District Is 8th in Size in Whole Country

Figures just released by the Bureau of the Census to Congressman George A. Paddock show that the Tenth Congressional District is the eighth largest in the United States. In 1940 the district had a population of 625,359 (approximately that of the state of North Dakota), an increase of 48,098 over 1930's figure of 577,261.

Congressional districts with greater population are the Seventh Illinois, still the largest in the country, with 914,053; the Sixth Illinois, with 641,751; and five New York districts.

In the Tenth, the vote cast for United States Congressman (325,425 by the two major parties) becomes 52 per cent of the total population. This is an unusually high voting percentage, since the state average of Illinois on the presidential vote itself was 53 per cent; New York state ran 46.6 per cent, and the major party vote for the country as a whole was 37.7 per cent of total population.

The Indian Point Bible class met Monday evening at the home of Mrs. Elizabeth Anderson.

Final preparations are in progress for the eighth annual inter-class play tournament, to be held at Antioch Township high school, Monday, Feb. 17 and Tuesday, Feb. 18.

The following students will participate:

All This, and "Swedish Angel," too, on Mat Card

It's Heavyweights Night at Waukegan Gym Tomorrow at 8:00 o'clock

Ruffy Silverstein, Karol Krauser, Jim McMillen, Hans Schnabel... all in the same evening... all on the same wrestling card. Yes, all of them and the Swedish Angel too. Lake county sport fans are expected to flock to the Waukegan high school gym Friday night (Feb. 14) when the Loyal Order of the Moose sponsor the biggest athletic event of its kind this year.

Topping the all-heavyweights, all-professional Valentine Day wrestling extravaganza is the one fall match to the finish between two of the mightiest men in sport, The Swedish Angel, throw-back to the Stone Age man, and Hans Schnabel, heavyweight champion of Germany. Friday's match will mark the first meeting of this pair and should develop into one of the most gruelling struggles ever witnessed in a Lake county ring.

The three supporting matches, every one of them suitable to be billed as main event anywhere, feature several of the nation's most glittering wrestling stars. For example, Ruffy Silverstein, generally recognized as the uncrowned champion of the world, takes on the mysterious Mr. Adolph Goebbles, Germany's latest contribution to sport and rumored to be related to Dr. Joseph Goebbles, head of German propaganda. Goebbles is a giant of a man and he is said to hold the diminutive Silverstein in complete contempt. In fact, he has offered to throw Ruffy twice in 45 minutes or forfeit his end of the gate receipts.

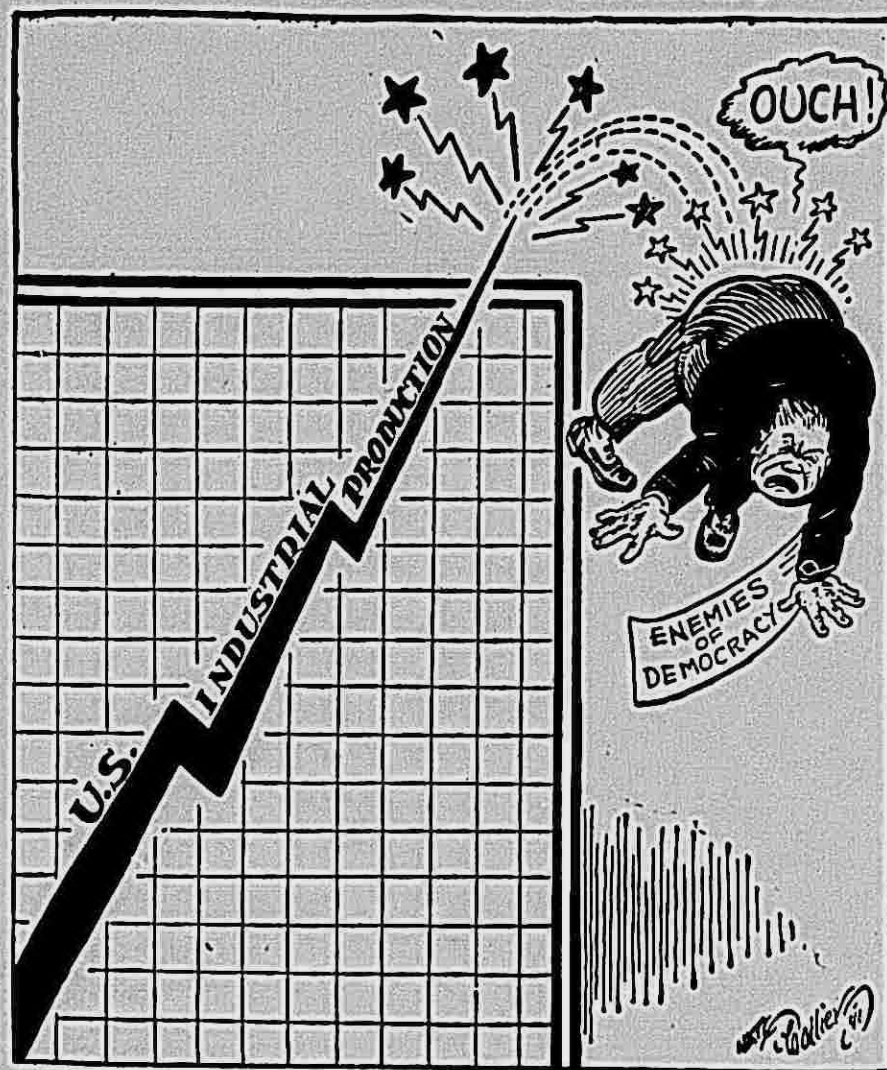

In another supporting bout, Jim McMillen, Lake county's own favorite son of sports, tackles Dolly Dizzy Davis, the "I-love-me" belle of wrestling. Davis, who enters the ring in a "lovely" silk robe and wears a corsage of tea roses, really can wrestle in spite of it all, and should give McMillen a tremendous time of it. The fourth match on the card pits the sensational Karol Krauser, Polish muscle man of the mat, against Gene Bowman, state heavyweight champion of Florida.

Task! Waukegan Firemen Put Out Wastebasket Fire; Also Window in Gibbs' Car

Imagine Donald Gibbs' surprise when he paid a little visit to Waukegan last Thursday afternoon and Waukegan firemen backed their hook and ladder rig into his coupe, breaking the window and damaging the top.

The firemen had been called to put out a blaze in a wastebasket in a home of South Victory avenue. Backing up into an intersection on the return trip to the station, they collided with Gibbs' car, which was parked on Eighth street near Victory.

THE LIGHTNING STRIKES

Lions See Movies at Dinner Meeting; Transact Business

Fine movies of the tobacco industry in the United States, a skiing picture and Fred Waring's orchestra in "Pleasuretime," were the entertainment features enjoyed by the Antioch Lions at their dinner meeting Monday evening at Adolph's Channel Inn, where a fine chicken dinner was served to the Lions and their guests.

The pictures were shown through the courtesy of Mr. Elmo Edwards, science and mathematics teacher at the local high school, who merited the thanks of the club. High school equipment was used in the productions and the Lions were duly appreciative of this favor also.

Committee reports were heard, and the club voted to buy the electrical equipment formerly used by the Antioch Softball association. The softball association, now disbanded, has no further use for the equipment.

A balance in the treasury of the Committee on Winter Sports was reported, after the payment of all bills in connection with the Ice Carnival held in January and maintaining lights and shelter building on Lake Antioch for the use of skaters.

While not definitely decided, it is believed that the local club will send a delegate to the Lions International convention in New Orleans in July.

Dollar Days Prize Contest Winners Named

Stores Enjoy Good Business During Annual Mid-Winter Sale

Mrs. Walter Freeman, Richmond, who came 12 miles to Antioch to shop on Dollar Days, Friday and Saturday, is winner of one of the \$1.50 Antioch Dollar Days Contest (All in Fun!) prizes.

Mrs. Mary E. Dorsey, Route 2, Kenosha, who came 10½ miles, and Mrs. Lillian Bartlett, Fox Lake, 10 miles, who came near establishing a three-way tie for first place, each will also receive prizes of \$1.50.

The prize of a like amount for the oldest Dollar Days shopper goes to Mrs. A. M. Shreve of Antioch.

The prizes for the person having the oldest car, and for the largest family of shoppers (all shoppers in the family having to be present at the store at the time of registering), were unclaimed and the money was distributed to other prize winners.

Checks have been mailed to the winners.

Business establishments co-operating to make the prizes possible were Williams Department store, the Style Shop, Otto S. Klass, the Antioch News, MariAnne's and King's Drug store.

Stresses Co-operation

Good Dollar Days business was reported by participating stores.

"I was especially pleased with the outcome of Dollar Days business this year," Otto S. Klass, veteran Antioch merchant, reports, "and I wish to thank the Antioch News for its co-operation in making this big annual mid-winter sales event possible. After all, the stores must do their part, too, for we cannot expect the newspaper to make a large affair like this a success, unaided. That it was a success is a tribute to cooperation on both sides."

Stores taking in the Dollar Days sale included Roblin's Hardware store, Darnaby's Shoe store, Williams', MariAnne's, the Style Shop, King's Drug store. A special Dollar Days subscription offer by the Antioch News met with a good response.

War—How Long Can It Last?

In military circles, the feeling that Hitler will soon make his supreme effort to defeat England is almost unanimous. Time is working with Britain. Hitler, the officers think, must win this year or certainly lose.

American correspondents in Germany report a feeling of complete and apparently sincere confidence on the part of Reich officials. England, some of them say, will be finished inside six months. Hitler is supposed to be perfecting his plans and organization now. The Germans think England can be broken by destroying her shipping, by greater air raids, and finally, by invasion when British morale has been weakened.

The British are convinced that, with unstinted American aid, they can't lose. They say they have some new weapons which will prove highly unpleasant surprises for invaders. The Germans still talk about new weapons, too. So far, however, despite all such talk, this war hasn't produced anything but improvements on old weapons.

Britain has just adopted tighter food rationing. German diet is reported still on the downgrade. Europe will be a mighty hungry place when the war ends.

Living Death as Remedy?

"In war or a huge defense program like ours there are two directions which we might travel," writes W. Randolph Burgess of the National City Bank of New

York. "One is to copy the authoritarian methods, to become ourselves a socialist state in the sense that the government would be given absolute control over the life of the people. It is appalling to discover how many people are willing to adopt that sort of solution for the present problems of the United States."

That solution means death—death for Liberty, for free enterprise, death for everything this country stands for. Its advocates are wily and insidious. While they urge measures that would destroy our free institutions, they say that they are urging them in the name of democracy. But they would like to out-dictate the dictators.

What proportion of Americans will swallow that philosophy? History tells us that free peoples have always outmatched oppressed peoples in every field of action. Government may need special powers in critical times, but it is not necessary that those special powers be designed to destroy democracy in the name of preserving it. Such powers, when granted, should be definitely limited in time.

Those who would use this world emergency to socialize our banks, our service industries, and many of our manufacturing industries, represent a philosophy of life which menaces us as directly, and perhaps more directly, than any possible aggressor beyond our borders. If we cannot make this country impregnable without throwing to the winds all its traditions and principles, what is our defense program for?

Dictatorship

So, the administration is endeavoring to find a way for evading the Johnson law forbidding lending of money to nations that don't pay their debts.

Its fear that Congress will not repeal the Johnson act motivates the administration.

In other words, the American people are unable through their representatives to rule themselves. The dictatorship is necessary!

Protein Content
No Sure Sign of
Feeding Qualities

During recent years, the idea has grown up in the minds of many farmers that the protein content shown on a feed tag is a sure indication of feeding value. "We want a feed with a high protein content," many say.

However, points out E. H. Hamel, manager of the fattening department of Purina Mills, the protein content of a feed can be very misleading. Just because a feed is high in protein is no sure indication that it is high in feeding value, he claims. Proteins, as such, vary greatly in their ability to meet feeding requirements.

"At the Purina Experimental Farm, Gray Summit, Missouri, we have found that a low-protein mixed concentrate frequently is more satisfactory for putting on pounds of pork or beef than one high in protein," he reports. "After all, that's what we're most interested in getting. It doesn't mean a thing to us if the analysis of a mixed concentrate shows that it is high in protein. In fact some of the most costly ingredients of the mixed concentrates we distribute nationally contain very little protein."

Hamel compares the making of a good protein supplement with the manufacture of a machine. The machinery manufacturer, he argues, has to sell his product on the basis of what it costs and what it will do—not on the pounds of iron it contains. In the same way, concentrates and feeds must be sold on the basis of what they do and what it costs to make them rather than on their protein content.

SOCIETY EVENTS

"Character and Hands" Will be Discussed for Club

Informative, educational—and entertaining!—is the talk to be given by Mrs. Cecil Meredith of Kenilworth before the Antioch Woman's club Monday afternoon in the home of Mrs. Herman Rosing, 916 Main street. "Happiness Lies in Your Hands," is the title Mrs. Meredith has given to her talk, which will deal with one of her hobbies, palmistry, and with the science of fingerprinting in its relation to criminology.

Mrs. Meredith is a graduate of Emma Willard school at Troy, N. Y. She attended Wellesley college and graduated from Washburn college in Topeka, Kans.

For the past 10 years she has made her home in Kenilworth, where she has been active in various civic and religious organizations.

She recently completed her term as president of the Neighbors of Kenilworth, woman's club organization, for which she has also served as program chairman.

Her hobbies include the collection of "pattern glass" as well as the study of character and characteristics as revealed in the hands.

She has spoken before a number of groups in the Chicago area recently.

On the hostess committee for the afternoon are Misses W. W. Warriner, R. E. Clabaugh and William Rosing.

Exams for Annapolis Academy Are Announced

All Tenth District candidates for appointment to the United States Naval Academy are asked to write to Congressman George A. Paddock at once, advising him where they can best take the preliminary examination scheduled for Friday, February 21, 9:00 A. M. at the Chicago post office and the Waukegan post office.

Although there were no Tenth District vacancies at Annapolis this year, the Naval Appropriations Bill just passed allows each congressman an additional appointment. With a large number of applications already received, Mr. Paddock plans to have

the Civil Service Commission give its regular preliminary examinations, as the fairest and most effective means of rating candidates for the appointment. Each applicant on the congressman's files has received a memorandum outlining the examination schedule and asking for the necessary information and references. Reply by return mail is requested since the Civil Service Commission must know how many candidates will be expected.

This examination, Congressman Paddock points out, is not by itself a guarantee of appointment; it merely rates the applicant on certain educational tests and recommends for the nomination. The required physical examination can be taken at Great Lakes

Naval Training Station on arrangement through Mr. Paddock's office, or at some selected place if the applicant is at school outside the District. In this last case the preliminary examination itself may be taken outside the District, but the Civil Service Commission must have notice well in advance. Congressman Paddock emphasized the need for immediate reply. He can be addressed at 118 House Office Building, Washington, D. C. Books of information on the entrance requirements have been furnished to all applicants. The age regulation is not less than 16 nor more than 20 years old on April 1, 1941.

SOME PARTY CAKES FOR FEBRUARY

If you are party minded February brings plenty of opportunity to "strut your stuff" what with Valentine's day and the two important birthdays, Washington's and Lincoln's! So here are cakes for the festive occasions.

Lady Baltimore Cake

1/2 cup butter
1 cup sugar
1/2 cup milk
1 1/4 cups flour
1 1/4 level teaspoons baking powder
3 whites of eggs

Measure all ingredients accurately. Beat butter to a cream and beat in the sugar gradually. Then add alternately the milk and the flour and lastly add the whites of eggs, beaten dry. Beat the mixture thoroughly 3 to 5 minutes; turn in prepared pan and let stand 3 to 5 minutes before baking. Bake in two layers about 18 minutes.

Frosting

1 cup sugar
1/3 cup boiling water
1 white of egg
1/3 cup chopped raisins
1/3 cup chopped nuts
2 figs, cut fine
1/2 teaspoon vanilla extract
Make a "boiled frosting" of the sugar, water and egg; add the fruit and vanilla and use as filling and frosting.

Chocolate Nougat Cake

1 1/2 cups white sugar
3/4 cup butter
2 eggs
3/4 teaspoon salt
1 teaspoon vanilla
1 square chocolate
1 cup chopped walnut meats
1 cup chopped dates
1 cup sour milk
1 teaspoon soda
2 cups flour
Cream butter and sugar, add melted chocolate, beaten eggs, salt, vanilla, milk, soda, flour, nuts and dates. Bake in slow oven 45 minutes to 1 hour.

Nut Cup Cakes

1/2 cup Spry
3/4 teaspoon salt
1 teaspoon vanilla
1 cup sugar
2 eggs
2 cups sifted flour
2 teaspoons baking powder
2/3 cup sweet milk
1/2 cup nut meats
Combine Spry, salt and vanilla. Add the sugar gradually and cream until light and fluffy. Beat the eggs until very thick and light in color; add to creamed mixture and beat well. Sift the flour and baking powder together three times. Add small amounts of flour to creamed mixture, alternately with milk, beating after each addition until smooth. . . . add nuts. . . . Pour batter into cup cake pans greased with Spry. Bake in moderate oven (350° F.) 25 to 30 minutes. Makes 18.

47 YEARS AGO
February 8, 1894

It is reported that smallpox has reached Waukegan, Libertyville and Wauconda. The papers published in those towns deny the existence of the disease and they are quite as reliable as a report which has been passed from mouth to mouth over a distance of sixteen miles of hilly country.

Josh Billings says: He who elevates his profession is the best mechanic, whether he preaches the gospel, pleads law or skins eels for a living. . . . Cunning and wisdom are often confounded; but there is nothing so plenty as cunning, nor nothing so scarce as wisdom. . . . If you are going to make amusements a steady business, chasing butterflies is just as sensible as enny.

From the Woman and Home department — "The present fancy for spotted veils is making oculists rich. Women have in some way gotten the idea that the large-dotted veil is becoming, and being fashionable, it has gotten a foothold that nothing seems able to interfere with. "Illustrated among the "newest fashions" are a street costume of magenta and black, "the jacket ornamented with double reverses of magenta cloth and satin, with sleeve puffs and vest of black velvet," a young girl's dress of surah has a "plain skirt with trimming either with rows of narrow braid or of striped material, a draped apron front falling from the belt made of striped material and trimmed with rosettes."

Secret of Making Good Cake Is in Folding

Do you know that the secret of making light and even textured angel food cake is in the method of folding the ingredients into the egg whites? The correct form for folding it as follows:

Tip the bowl slightly toward the right hand, and with the bottom of the wire whip held near and parallel to the side of the bowl, gently cut down through the egg whites. As the bottom of the bowl is approached, gradually shift the position of the egg-whip until it is brought along parallel to the bottom, then as the opposite side of the bowl is approached, again shift the position of the egg-whip so that it faces the bottom of the bowl. At the same time, carry it across to the other side of the bowl, holding it just above the surface of the mixture and moving it gently to avoid snapping off the mass of the material clinging to it. This whole process constitutes one complete revolution of the whip and is the essential movement in folding. Each time it is made, the bowl should be rotated through an angle of about 45 degrees, thus bringing a new portion of the mixture into contact with the whip at each of its revolutions.

How to Wash a Sweater Without Shrinking It

Do you know how to wash a child's sweater so that it won't shrink?

Here is the way:
Measure the length and width of the different parts of the garment before wetting it. For example, measure the length and width of the front, back and sleeves of the sweater. Wash in lukewarm soap suds, squeezing the garment in the water, but never rubbing it. If the sweater is extremely soiled, it should be washed in several waters. The rinsing water should contain just a trace of soap suds. Squeeze the moisture from the garment, but do not wring it out. Spread a clean sheet, folded several times on a flat surface such as a table, and place it where there is a good draft, or outdoors if the color is not too delicate to stand the sunshine. Place on this a rough turkish towel, and then spread out the sweater with the back next to the towel. Bring the fronts together and place the sleeves in a nearly outstretched position. Stretch each part of the sweater to the length and width that it was before washing, and pin in place. When the garment is practically dry, turn it and dry on the other side.

"HOME HYGIENE" CLASS IS POPULAR

The "Home Hygiene and Care of the Sick" class has become so popular that it has become necessary to have two teachers. Mrs. Joseph Levandusky, of Waukegan, will teach a class every Friday from 1:30 to 3:30 p. m. at the Home Bureau office, Grayslake.

At the second meeting on Jan. 31 the lesson was given on "Individual Health and Personal hygiene." The Home Environment."

Supervisor Chase Webb, who was in attendance at a meeting of Good Roads officials at Libertyville, announces that the new state road will extend from Libertyville through Antioch and on to the Wisconsin state line. This means that our Main street will be paved with cement from one end to the other. Everyone along Main street is elated that there is a prospect of the dust nuisance, from which we suffered so severely last summer, being permanently done away with.

Geo. Wedge purchased fifteen cavalry horses at a sale in Chicago recently. They arrived in Antioch Wednesday.

Books Your Children Should Read

"You guard his body well, I know, You keep it free from pain, But what about his growing mind?"

His spirit's flaming need? His secret young imaginings? His groping, yearning brain?

Oh, Mothers, won't you think about the books your children read? —From the Iowa P. T. A. Mag.

Books are the cheapest yet most durable form of entertainment for both children and adults. For children they may be either character builders or character destroyers depending upon the type of book read. The ideal place to start reading good books and good magazines is in the home. Parents should read too, and with their children. However, they as a group have lagged far behind libraries and schools in the interest shown for good children's reading.

Modern books for children have reached a high degree of excellency during the past decade. There are literally hundreds of good children's books to be found in book stores and libraries. With all this worthwhile material at hand it is a crime to allow children to waste their time on these cheap degrading comic magazines which can be purchased for only a few cents at all news stands.

In selecting books for children there are several things to consider: first of all the content; if you yourself are not familiar with a particular book, go to your library, your child's teacher or a good book store and find out whether the book in question can be found on an approved book list for children. In content, too, should be considered the child's age level and his interests.

Books for a certain child should not all be on the same subject, give him variety. Next notice the print, size and legibility of type, spacing of words and margins, and illustrations, if there are any. Third, how it is bound and what kind of paper issued, is it durable, what about the color and finish. A light cream color in a dull finish is ideal.

Every child should have a few books which he can call his own. Then for those other books which a child reads but does not own (we people living in Antioch and the surrounding community are indeed fortunate since we do have an excellent public library) go up and ask the librarians to show you some of the children's books to be found on the book shelves: You will find our librarians capable, courteous and eager to help you. Our village and rural schools in Antioch and the surrounding country, too, have good children's libraries. Parents, find out what your child is reading and help him to select books which will help him individually.

Following is a list of children's books for different age levels. All of these books can be found in our public library here in Antioch.

Housewives Now Able to Buy Uniformly High Quality Eggs

Eggs of uniformly high quality—the kind the particular housewife wants—are now available to local housewives, reports C. S. Johnson, manager of the poultry department, Purina Mills, and friend of our local Purina distributor.

According to Johnson, these special eggs are sold in strong, attractive checkerboard cartons that protect their identity from the time they are packed by the producer until they are used by the housewife. The checkerboard carton is a sign of guaranteed quality, Johnson says.

"Every egg packed in these checkerboard cartons is the same," Johnson claims. "Each yolk is of the same rich, lemon-yellow color and so firm that it can be separated easily from the white and rolled from hand to hand without breaking. The whites are exceptionally firm. The shells are dense and thick

and not easily broken."

Johnson explains that these special eggs, known as Layena eggs, are produced by hens kept under carefully controlled conditions of management, feeding and care of eggs. They are fed a balanced feed enriched with vitamins A, D and G, and blended to produce a highly nutritious egg containing dependable amounts of vitamins A, D and G. At no time are these hens allowed to run loose where they can pick up bugs and other materials that affect the color and taste of eggs.

Editor's Note: If you would like to try a carton of eggs produced and cared for this special way, and don't know where to get them, give our local Purina distributor a ring. He will be happy to tell you where they may be obtained for a few cents more than the price asked for ordinary eggs.

Antioch Legion Says "Thank You" for News Space

Presents Certificates of Appreciation to Newspapers

Denoting its appreciation of assistance given projects and past activities during the past year is a certificate presented to the Antioch News by Antioch Post No. 748 of the American Legion last Thursday evening.

The presentation was made by J. Harry Messing, commander, on behalf of the Legion, with acceptance by H. B. Gaston, publisher of the News. Similar certificates were also presented to the Waukegan Post and the Waukegan News Sun, and were accepted on their behalf by Raymond Hyde, editor of the Post, and Einar Peterson, of the News Sun staff.

Commander Messing predicted that 1941 will be an outstanding year for the Antioch post and called attention to coming activities.

Military Ball Feb. 22

These include a Military Ball to be held in the Antioch High School gymnasium on Washington's birthday. Johnny Mayfield's 10-piece orchestra will play and Betty Shank is to be vocal soloist.

State and district Legion officials have been invited to attend, as have also groups from Great Lakes naval training station and Fort Sheridan. The Waukegan Township R. O. T. C. drill team has been asked to stage a drill during the dance intermission.

There will also be a floor show. Capt. L. D. Powles is general chairman for the ball, assisted by Roman Vos, Dr. A. P. Bratrude, John Thiesen, W. K. Hills, J. H. Messing and John L. Horan. Tickets may be secured from Legion members or Antioch business concerns.

Commander Messing also announces that plans are being made to sponsor a home talent show for the entertainment of veterans at Downey later in the month.

Lum and Abner Are Coming to Roosevelt

The popular radio stars Lum and Abner, will appear on the screen of Bill Exton's Roosevelt Theatre in Kenosha for three days starting Sunday in a double program which will bring the Pine Ridge philosophers and their "Jot-em-down" store to the screen for the first time in "Dreaming Out Loud."

Their wide-spread popularity as a nightly feature on the leading radio networks and their advent into the motion picture field have been heralded with great success.

On this same program, Dorothy Lamour will be shown in "Moon Over Burma," with Robert Preston and Preston Foster in supporting roles.

A Donald Duck cartoon, also an exciting sports reel, will also be included in the three day program starting next Sunday. There will be ample free parking for out of town guests, and patrons reaching the theatre before 1:30 o'clock on Sunday afternoon may take advantage of the "early bird" admission prices of fifteen cents.

Profit of \$2,600 Cleared by Antioch Vocational Students

Forty Future Farmers of the Vocational Agriculture Department of the Antioch Township High School recently completed forty-five farm production projects to earn a profit of \$2,610.04. C. L. Kutil, Vocational Agriculture instructor, announces.

These projects carried to completion under the supervision of the school are a necessary part of the young men's training to combine the practical with the classroom instruction.

Over \$5,500 worth of products were produced. After all expenses were deducted, including labor, seed and feed, young stock, rent, etc., a profit of \$2,610.04 was realized.

More than \$300 was earned as premiums at fairs.

Poultry projects lead in popularity and greatest profit. Dairy was next with corn, beef cattle, grain, swine, sheep, gardening, orcharding, and shop construction following in order.

According to C. L. Kutil, Vocational Agriculture instructor, the prospects for next year are good—in view of the good farm outlook for 1941.

THANK YOU!

I am turning over a farm implement business to the Sheehan Brothers, who are located on Depot street.

I wish to thank the people of Antioch and surrounding communities for their cooperation during the past 24 years, and hope they will continue their patronage with the new company.

"They can't do that to me!" said a certain Chicago fishing enthusiast who is also well known around Antioch. Seems said CFE had been playing a pin ball machine in a gas station in Dear Ol' Chi. The machine didn't pay off, but he was to keep track of his winnings, and then be paid off by the proprietor. When he had run his winnings up to 60 cents, he got tired of the game and asked for his money—which he didn't get. So he called up the state's attorney in Chicago. "We ain't heard yet whether or not he got his 60c, but we're waitin'."

We went where in a bomb shelter maintained by the Savoy hotel in London—

"Single men and single women are assigned separate bays, and there are bays for married couples. And carrying shelter etiquette to the nth degree, they even have a separate compartment for chronic snorers. They just herd 'em all together and let 'em snore it out."

—Competition for the air raids, er sumpin'.

In a recent editorial commenting on the reasons for Italy's poor showing in the war is this significant statement:

"Bravery is not alone in fighting and dying. It is also in having a cause worth dying for. For tyranny the Italians are loath to die."

Seems like this war was kinda unpopular all around, all the way through. Belgium just up and quit, France won't play any more, the British can take it, but they don't have to like it. . . . and we'll betcha the Germans would doggone well a lot rather have had the butter they didn't get than the cannon they went without butter to buy. War is a losing game all the way through, and bitter fruit for the winners as well as the losers, when it's all over and the mess has to be cleaned up. Hitler has been riding the crest of the wave so far. But what will the back-wash be?

"Bill" Exton from the Roosevelt theatre in Kenosha was in town today and dropped in to say "hello" at the Antioch News office. "Bill" was one of the judges at a bathing beauty contest at the Antioch Lions' summer festival two or three years back. . . . and has been kinda scared to come back and face the losers ever since. He says there's only one thing worse than judging a bathing beauty contest and that's judging a baby contest. Every mother thinks HER child outta be the winner.

We don't believe a word of it, but there was an item in a paper the other day about a guy (we mean a gentleman) in Middletown, N. Y., who wanted to pay a fine for illegal parking, and the cops there wouldn't let him because he was from out of town and entitled to one violation without penalty. The cops were gentlemen, too, it seems.

How do you feel about these here now musical horns that you can play tunes on, like "How Dry I Am"—We don't know, either, but when a wedding party came around a block six times, a while back, and played the same tune each time, we did kinda yawn and wonder how about requests.
